Front-End Web Developer

Description

We are looking for a talented Front-End Web Developer to join our growing team. The ideal candidate should have strong experience in building responsive, visually appealing, and user-friendly websites. You must be able to translate UI/UX designs into high-quality code and collaborate with designers and backend developers.

Responsibilities

- Develop responsive websites using HTML, CSS, JavaScript, and modern frameworks (React, Vue, or Angular).
- Optimize website performance and ensure cross-browser compatibility.
- Collaborate with designers to implement pixel-perfect layouts.
- Maintain and enhance existing websites and web applications.
- Troubleshoot UI issues and implement best coding practices.

Requirements:

- Proven experience as a Front-End Developer.
- Strong knowledge of HTML5, CSS3, JavaScript (ES6+).
- Experience with at least one modern JS framework.
- Understanding of Git version control.
- Strong attention to detail and ability to meet deadlines.
